SUBJECT: Porter Coatings - A. L. Taylor Site

On July 31, 1980, I met with Joyce Specht (Manager of Compliance - Porter Coatings, Division of Porter Paint Company) at the Valley of the Drums to check for the presence of Porter Paint drums on site.

NOTE: A previous Divisional inventory (March 13-21, 1979) recorded three (3) drums identified as Porter Paints in the I section, on site.

We failed to find any of these three (3) designated drums.

This was probably due to the fact that Reliance Universal/CECOS, in their clean-up operations, had removed the drums for disposal.

Ms. Specht informed me that Porter, to her knowledge, had never contracted Taylor's Company for hauling and/or disposal practices. Additionally, she stated she would keep the subject matter open, and if any Porter Paint drums were found on site, removal and proper disposal of the drum(s) would result.
